A blitz introduction to 2-dimensional categorical structures II

By
Redi Haderi
(Bilkent)

Abstract: We will see examples of weak 2-categories and complete our diagram of interdependence between monoidal categories, enriched categories, 2-categories and double categories (the latter still to be defined).

Date: February 25, 2019

Time: 13:40 – 14:40

Place: SA141 Mathematics Seminar Room

* Tea and cookies will be served after the talk. All are most cordially invited.
