

Algebraic Geometry

Singularities

BY

TOLGA KARAYAYLA
(ODTU)

Abstract: In this talk I will give the descriptions and characterizations of the types of singularities which arise in Minimal Model Program, namely terminal singularities, canonical singularities, log terminal singularities and log canonical singularities.

Date: 9 March 2018, Friday

Time: 15:40 +

Place: Mathematics Seminar Room SA-141, Bilkent

Tea and cookie will be served before the talk. You are most cordially invited.
