Algebraic Geometry

Cone and contraction theorems for surfaces

BY

ALİ ULAŞ ÖZGÜR KİŞİSEL
(ODTU)

Abstract: We will first review notions of ample and nef divisors and several numerical criteria. Afterwards, we will discuss the cone and contraction theorems for the case of surfaces.

Date: February 23, Friday
Time: 15:40
Place: Mathematics Seminar Room SA-141, Bilkent

Tea and cookie will be served before the talk. You are most cordially invited.
