

ODTU-Bilkent Algebraic Geometry

“Quiver representations”

By

Emre Coşkun
(ODTÜ)

Abstract: In this talk, we shall introduce quivers and their representations and discuss their basic properties. We shall also discuss and prove (if time permits) Gabriel's theorem, which gives a complete classification of quivers of finite type.

Date: 17 April 2020, Friday

Time: 15:40 +
