Department of Mathematics Seminar

Random matrices and our recent results

By

Renjie Feng
(University of Science and Technology of China)

Abstract: In the talk, I will first briefly introduce some basic definitions and results about the classical random matrices, then I will present two of our recent results: the extreme gaps of the classical random matrices and the normality of circular beta ensemble.

Date: 10 March 2021, Wednesday
Time: 15:40
Place: Zoom
