

TOPOLOGY SEMINAR

Segal spaces I

By

Özgün Ünlü
(Bilkent)

Abstract: This talk will prepare a background for the third model of infinity categories: complete Segal spaces. Therefore the following topics will be discussed: bisimplicial sets, model structures on functor categories, injective model structure, Reedy model structure, and Rezk nerve of a category.

Date: Monday, April 10, 2023

Time: 13:30

Place: SA141 - Mathematics Seminar Room & ZOOM
