Connes' Conjecture: from Operator Algebra to Turing Machines

By

Liviu Paunescu

(Institute of Mathematics of the Romanian Academy)

Abstract: We will present the statement of Connes' Conjecture and various equivalent formulations. Subsequently we will discuss non-local games, that is the framework used in the article $MIP^*=RE$ for refuting the conjecture.

Date: Wednesday, November 10, 2021

Time: 18:00-19:00, GMT+3.

Place: ZOOM
