TOPOLOGY SEMINAR

Derived geometry IV: Introduction to derived symplectic geometry

By

Ilker Kadri Berktav
(Bilkent)

Abstract: In this talk, we will continue our discussion on the formulation of higher spaces, following sheaf-theoretical approaches. We will then present the basics of shifted symplectic structures and related results.

Date: April 21, Monday, 2025
Time: 13:30
Place: SA141 & ZOOM
