ALGEBRA SEMINAR

Block algebras of finite groups and finite-dimensional symmetric algebras that have two simples

By

Shigeo Koshitani
(Chiba University)

Abstract: We will be discussing a topic in modular representation theory of finite groups, more precisely block algebras of finite groups over a prime characteristic field with only two non-isomorphic simple modules. More generally we might discuss also finite-dimensional symmetric algebras with two simples.

Date: Wednesday, November 23, 2022
Time: 11:00 – 12:00 (UTC+3)
Place: ZOOM. This is an online seminar. To request the event link, please send a message to d.yilmaz@bilkent.edu.tr
