On the boundary value problem for the differential operators with unbounded operator coefficients

By

Nigar Aslanova

(Azerbaijan University of Architecture and Construction)

Abstract: I will present our recent results on boundary value problems for fourth-order differential equations with unbounded operator coefficients. We studied spectral properties of the associated operators with exit to larger space.

Date: Tuesday, November 29, 2022

Time: 16:00-17:00, GMT+3

Place: ZOOM
