TOPOLOGY SEMINAR

"TOPOLOGICAL OPERADS"

BY

Özgün Ünlü
(Bilkent)

Abstract: We will first discuss topological operads with an emphasis on A-infinity and E-infinity operads. Then we will talk about the recognition principle for iterated loop spaces. If time permits, we will start discussing a model category structure on topological operads.

Date: February 26, 2018 Monday
Time: 13:40-14:30
Place: SA141 Mathematics Seminar Room

* Tea and cookies will be served after the talk. All are most cordially invited.
