ALGEBRA SEMINAR

On symmetric and dihedral invariants

By

Şehmus Fındık
(Çukurova)

Abstract: Let S and D be the symmetric group and the dihedral group of order n! and 2n, respectively. In this talk, we discuss some recent works on the algebra of S-invariants and D-invariants in some certain noncommutative and/or nonassociative free algebras.

Date: Monday, 4 November 2024
Time: 11:00 – 12:00
